Will MIPS pursue my right to indemnity if my employer/hospital/clinic refuses to assist?

Yes, if you are a MIPS member and you provide healthcare in an employer indemnity role where the healthcare you provide is covered under your employer's policy, then MIPS is able to provide assistance through **MIPS Protections**. This may also be known as 'indemnity dispute pursuit'. MIPS commonly assists members where employers are not meeting or where they are unable to meet their obligations (eg due to conflict of interest).
