

# Informed Consent: Good Practice Solutions

Reading time:

Tom Wilson

Last Modified on 07/05/2024 11:33 am AEST

Due to popular demand, we present to you our part 2 webinar over 2020 on the topic of informed consent.

In this interactive webinar three industry experts will guide you through a detailed discussion ,analysing a selection of case studies that will illustrate how everyday informed consent matters can become more complicated than initially anticipated. The case studies will cover:

- hospital surgical procedures
- a cosmetic practice
- a general practice procedure
- dental practice settings.

The discussion will highlight the practical challenges faced by all practitioners. You can access the case studies and notes from the webinar in the handouts section of the on-demand webinar room.

## Learning objectives

1. Discuss relevant practical clinical scenarios concerning consent issues from a legal and clinical perspective
2. Identify essential legal and regulatory considerations when obtaining an informed consent
3. Plan effective strategies to ensure you obtain adequate consent to treatment

## Presenters

Dr Nichola Davis - GP and MIPS Clinico-Legal Adviser

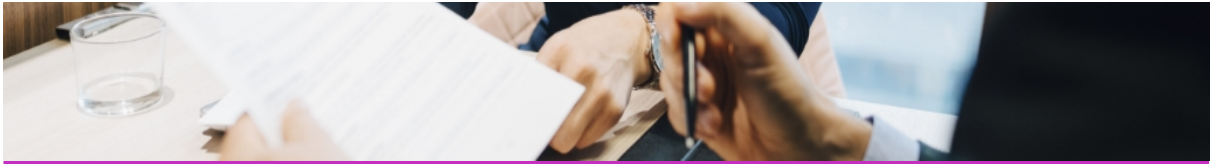

Dr Gerard Clausen - Prosthodontist and MIPS Dento-Legal Adviser

Michael Regos - Solicitor - 20 years at DLA Piper
