Regulation in the field of cosmetic surgery has undergone significant and recent reform, impacting everything from standards and advertising guidelines to registration requirements and amendments to the National Law. As a healthcare practitioner, it's important to be informed and prepared for these changes, even if you don't perform cosmetic surgery yourself.

Overview

This webinar will offer valuable information and practical strategies to enhance your understanding of the regulatory landscape and mitigate potential risks in your cosmetic practices.

Learning outcomes

At the end of this session, participants will understand:

- Understand recent regulatory changes
- Assess impacts on practice and indemnity
- Implement effective practice systems

Q & A

⊕ What do I do if I am unsure if a patient has capacity to consent to cosmetic surgery? Who has responsibility for assessing the capacity of the patient?

⊕ Are there any specific tools to assess if cosmetic surgery is appropriate?

⊕ What should I do if I don't think the patient needs or should have the cosmetic procedure which they want the referral for?

⊕ Do cosmetic surgical procedures now have a "cooling off period"?

⊕ Do these regulatory reforms apply to cosmetic procedures and cosmetic surgery?

⊕ Are there resources for patients about the regulatory changes which outline best practice for cosmetic procedures?

⊕ I am not sure whether the procedure is reconstructive or cosmetic? How should I approach this?

⊕ Do I need to assess a patient for BDD before using cosmetic injectables?
