2 hrs Reviewing Performance

Part A – Critical reading section

From an evidence-based medicine perspective, critical reading is an instructional tool that develops healthcare professionals' clinical competence by enhancing their metacognitive skills, self-efficacy and culturally situated perspectives. It also facilitates a review of one's performance.

In this pre-webinar activity, we invite you to read the following articles:

Bradfield, O. (2023). Children: Custody, competence and consent: Managing parental disagreement. Australian Journal of General Practice, 52(12).

Ethical guidance to help doctors navigate disagreements with parents over their child's healthcare (The University of Melbourne).

Part B – Critical appraisal
