

Critical Thinking in Action: Mitigating risks in clinical practice - Pre webinar activity

Reading time:
Rey Yesilnacar
Date created: 27/11/2024

Time to complete: 5 hours

This CPD activity is divided in two sections. We expect that completing both sections should take you 5 hours.

Section A – (Reviewing Performance - 2 hours) invites you to consider a fictional scenario and discuss the medico-legal implications.

Section B – (Measuring Outcomes - 3 hours) invites you to engage in a mini quality improvement exercise to proactively identify learning gaps and plan an educational program for the next CPD annual cycle.

Section A: Reviewing Performance

Root Cause Analysis using a fictional case scenario

[Online Form - Critical Thinking in Action- Mitigating risks in clinical practice - section a - Pre Webinar Activity](#)

Section B: Measuring Outcomes

Medico-legal Individual Quality Improvement (QI) Project

Purpose: To assist you in improving a specific aspect of your professional practice by reflecting and planning professional development activities for the 2025 CPD cycle.

Potential Areas of focus

Employment Law: Understanding of Australian Employment law updates as per 2024

Confidentiality and privacy: protecting patient information and ensuring appropriate access and disclosure.

Use of technology and AI: Understanding of ethical and legal use of technology, including AI transcription tools.

PLEASE ENSURE THAT YOU DO NOT DISCLOSE ANY IDENTIFYING PATIENT INFORMATION TO MIPS WHEN COMPLETING THIS QI PROJECT.

Please complete the template below to submit your responses.
