

# AI Scribes in Medicine and Dentistry – An Update

Reading time:

MIPS Education

Date created: 06/02/2025

Join us for an interactive session expanding on [last year's webinar](#), as we explore the medico-legal risks associated with AI-mediated scribes in healthcare.

Our Chief Medical Officer, Dr Owen Bradfield, will examine recent legal developments in Australia, discuss ethical considerations, and share best practices for integrating AI scribes. Topics include managing data privacy, clinical documentation, informed consent, professional liability, and addressing the potential impact on the patient-doctor relationship.

[Watch the webinar](#)

## Learning outcomes

By the end of this session, you will be able to:

- Discuss the potential benefits and risks of AI scribes within a medico-legal framework.
- Discuss real-world case scenarios highlighting potential challenges in clinical practice.
- Develop strategies to mitigate medico-legal risks associated with using AI scribes in clinical settings.
