

Critically assessing AI scribes in clinical practice - Post Webinar Activity

Reading time:

MIPS Education

Date created: 20/02/2025

Time to complete: 5 hours

This CPD activity is divided in two sections. We expect that completing both sections should take you 4 hours.

Section A – (Reviewing Performance - 2 hours) invites you to undertake a Root-Cause-Analysis (RCA) exercise using a hypothetical case scenario.

Section B – (Measuring Outcomes - 3 hours) invites you audit a sample of medical records generated by AI scribes to check for accuracy and analyse any hallucinations. You may choose to audit a sample of your own AI-generated clinical notes or peer review one of your colleagues' AI generated clinical notes. PLEASE ENSURE THAT YOU DO NOT DISCLOSE IDENTIFYING PATIENT INFORMATION TO MIPS WHEN COMPLETING THIS MINI-AUDIT
