Section A – (Reviewing Performance - 1 hour) invites you to reflect on the role of medical practitioners in assessing fitness to drive in patients with varying medical conditions, and to critically examine some of the potential medicolegal risks involved.

Section B – (Measuring Outcomes - 3 hours) invites you to audit a sample of medical records to evaluate your compliance with relevant legislative and regulatory frameworks regarding assessing patients' fitness to drive in Australia. You may choose to audit a sample of your own clinical notes or peer review one of your colleagues' clinical notes.
