Clinical governance essentials in medicine and dentistry: bridging quality care and medico-legal risk management

Reading time:
MIPS Admin
Date created: 17/06/2026

Clinical governance frameworks are central to safe, accountable practice – but understanding how they intersect with medico-legal responsibility is not always straightforward.

We're delighted to welcome the current President of the Royal Australasian College of Medical Administrators, Professor Erwin Loh, who will explore how effective governance systems support patient safety and reduce medico-legal risk, with case-based insights and practical strategies you can apply in your own practice.

Watch the webinar

Learning outcomes

By the end of this session, you will be able to:

- Explain the key principles of clinical governance and their medico-legal implications in contemporary healthcare practice.
- Evaluate governance frameworks and accountability systems to identify opportunities for quality improvement.
- Plan strategies to mitigate medico-legal risks in clinical practice.
